EXAMINER'S AMENDMENT

The Appeal Brief filed March 22, 2002 (Paper No. 54) has been entered.

Claims 26, 27, 32-37, and 39-62 are pending in the instant application.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ivor Elrifi on June 14, 2002.

The application has been amended as follows:

In the Claims:

- 1 26. A method of transplanting multipotent neural stem cell progeny to a host comprising:
- (a) obtaining a population of cells derived from mammalian neural tissue containing at least one multipotent CNS neural stem cell, said neural stem cell under suitable culture conditions producing progeny that differentiate into neurons that express neuron specific enolase or neurofilament and glia that express glial fibrillary acidic protein or express galactocerebroside;
 - (b) culturing the neural stem cell in (a) in a culture medium containing one or more growth factors which under suitable culture conditions induces multipotent neural stem cell proliferation;
 - (c) inducing proliferation of said multipotent neural stem cell to produce neural stem cell progeny which includes multipotent neural stem cell progeny cells; and
 - (d) transplanting said multipotent neural stem cell progeny to said host.

The following is an examiner's statement of reasons for allowance:

The rejection under 35 U.S.C. 112, first paragraph, has been withdrawn in view of Applicants' arguments that neural stem cell progeny can be transplanted into a host without undue experimentation. As evidence, Applicants point to Akerud et al. (2001) J. Neurosci. 21 (20): 8108-8118 and Toda et al.

Art Unit: 1632

(2001) Neuroscience Letters 316: 9-12. The Examiner agrees that the cited post-filing art demonstrates successful application of the claimed invention

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anne-Marie Baker whose telephone number is (703) 306-9155. The examiner can normally be reached Monday through Thursday and alternate Fridays from 10:00 AM to 7:30 PM.
